1. The following is an examiner's statement of reasons for allowance: As claimed by the instant claim 1, and taught in the specification at page 15 and in the experimental examples, Applicant's matrix contains oxygen that was created during the manufacture of the matrix. The prior art relied upon by the examiner (U.S. Pat. No. 5,792,090) teaches a wound dressing with oxygen, wherein the oxygen is created after permangante solution is reacted with hydrogen peroxide while the dressing was over the wound. As such, the instant claims are not anticipated nor made obvious by the prior art and the previous rejection is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert M DeWitty whose telephone number is 703-308-2411. The examiner can normally be reached on 9:00am - 5:00pm.
